FEASIBILITY STUDIES

CEM

ACC. NUMBER	AUTHOR	TITLE	YEAR
5590	Eisel Zarvic D. Cuales	Green Retrofitting: A Conversion of the traditional 5-storey Bookman Inc. into a Sustainable Building Structure	2012
5591	Narciso, Zandro P.	Assessment of Earthworks conducted by IPM Construction in Metro Manila	2014
5592	Baltazar, Cathleen Joy L.	Application of Traffic Calming Devices in Bonifacio Global City, Taguig City	2014
5593	Arches, Christopher James C.	Analysis of Activity-travel Patterns of Students at Mapua Institute of Technology	2015
7532	Añosa, Jeralou C	The Integration of Building Information Modeling and Lean Construction as a Design Build Tool for the Port Terminal Building in Batangas	2013
e7616	Garcia, Claren Pia S	Proposed Analysis of Project Monitoring through the use of closed Circuit Television for Niche	2015
e7617	Inocencio, Rev V	Study of Methods of Construction to Convert an Existing Open Dump into Engineered Sanitary	2015
e7780	Aficial, John Lorenz	Minimizing construction based accidents through comparative approach	2015
e7788	Cruz, Azrick John	Evaluating the Existing Maintenance management System of the Espana Towers condominium to develop a Building maintenance...	2014
e7795	Masangya, Christopher	Integration of Building Information Technology as a Tool to Improve Efficiency in Project Management for Solaire entertainment	2014
e7946	Arciaga, Charles Nicole.	Assessment of City Optimized Managed Electric Transport also known as COMET E-	2016
e7949	Basco, Jay D.	Study of the implementation on safety and health program for specialty	2016
e7958	Casalme, Jon Bryan Ren.	A Study on the Traffic Management: The Case of Walled City, Intramuros Manila	2016
e7959	Perez, Daniel S.	Schedule Delay Analysis of DPWH Road Construction Projects in the 4th Legislative District	2016
e7971	Jovita, Aprille Joy P.	Effectiveness of implementation of quality assurance on department	2016

e8293	Abdullahi, Chadra M.	A Study Identifying Construction Material Waste Management Practices Used by Construction Firms in Binondo	2017
e8297	Akharpour, Aydin.	Proposed Service Quality Improvement Considering Demand Forecast Through Time Series Analysis and Perception of Passengers for The Philippine National Railways System	2017
e8305	Aquino, Kennet Cyrus V.	A Study on the Application of the Kalman Earned Value Method in Predicting the Effects of Delays on the Duration of Structural works on Construction Projects	2016
e8308	Atienza, Reyneth F.	An Analysis on How to Control the Delays of Building Construction in Southern Caloocan City	2017
e8318	Bernardo, Leanne D.	Factors Associated with Job Performance of Engineers and Architects under the Supervision Engineers and Architects under the Supervision of the Project Manager in Construction Project and Management of High-rise Building in Metro Manila	2017
e8319	Berroya, Kathrina Jessica B.	Identification of the Effectiveness of Light Rail Transit 1 Expansion project in Improving Commuters Mobility	2017
e8322	Calalo, Alyssa Faye I.	The Effects of Human Resource Management Policies in Construction Worker's Productivity in a Construction Company in Espaa Boulevard	2017
e8325	Calomarde, Rosemarie P.	An Analysis on the Acceptability of Electric- Powered Tricycles in Intramuros, Manila	2017
e8327	Castro, Mark C.	COMPLIANCE OF PUBLIC AND PRIVATE CONSTRUCTION COMPANIES WITH R.A. 10524 AND ITS IMPLICATIONS FOR THE OVERALL COMPANY PERFORMANCE	2016
e8329	Chua, Clarissa Mabel S.	Analysis of Dependence of the Usage of Construction Equipment to PCAB Ranking of Companies for Ranks D, C, and B: A Guidance on Equipment Acquisition in Taguig City, Philippines	2017
e8334	Criste, Glenn Louie V.	Local Engineering Adaptation Strategy to Improve the Resiliency of Road Infrastructures in Barangay Darangan Binangonan Rizal	2017
e8340	De Galicia, Keil Barson R.	Determining Managements Role in a Construction Company to Enhance Laborers Productivity and Motivation A Case Study of Mind Concept Construction and Interior Design	2017
e8349	Gando, Marc Ismael Joseph M.	Assessment of 16 Inch by 16 Inch Concrete Hollow Blocks with Standard Thickness as an Alternative to Walling Construction	2016
e8351	Gatus, John Christian L.	An Assessment of Green Roofing Made by Green Roofing Philippines on the Baclaran Church Youth Center	2017

e8364	Jacinto, Jaypard C.	Analysis of Causes of Delay and Time Performance with Possible Solutions on Vertical Construction Projects located within Manila	2016
e8365	Peralta, Ivan Joshua S.	System Improvement of MRT Line 3 to Optimize Passenger Demand and Service	2017
e8368	Zhuang, Yangsi.	Measurement of Effective Safety Practices in Various Construction Projects in Philippines	2016
8840	Autea, Thomas Kevin L.	Thesis Manuscript	2016
8841	Amparo, Ariane A.	E-trike as Sustainable Transportation in Intramuros, Manila	2017
8845	Cordon, Tom Josephus C.	Determination of Impacts of Construction Supply Chain Management on Projects along Taft Avenue	2017
9084	Arceno, Micah	Critical analysis of Safety Practices of construction Workers in Small, Medium & Large Scale Engineering Firms	2017
9089	Bautista, Jan Josef	Cost Percentage Determination on the Allocated Budget to Safety health in the Construction ...	2017
9094	Cobrado, Mae Yna	Net Present Value Analysis of the Philippine national Railway to Improve the Quality of Ridership of Passenger Trains	2017
9095	Criste, Maria Lorraine	Factors Influencing the company's Performance : A Strategic Analysis of ABC company	2017
9099	Delos, Reyes, Brendan Paolo	Assessment on Work Productivity through Human Resource Management	2017
9107	Fernandez. Fernandale	Analytical Hierarchy Process Decision Analysis for Optimum Selection of Most Effective Factor ...	2017
9108	Bondoc, Seadd	Contribution of Permeable Road pavement to Flood Management in Intramuros, Manila	2017
9114	Garcia, Julienne	A Multi- Criteria Decision analysis (MCOA) using Analytical Hierarchy Process (AHP) for ...	2017
9119	Cordon, Tom Josephous	Determination of Impact of Construction Supply Chain Management on Project Taft Avenue	2017

Total: 44 vols.
