

**LIST OF GRADUATE THESES
as of October 2021
Master of Science in Biological Engineering**

- Garcia, M. W. M. (2018). *Physico-chemical analysis of modern rice cultivars from the Philippines* [Master's Thesis, MSBE]. School of Graduate Studies, Mapua University.
- Gomez, M. C. (2020). *Prediction of Conotoxin Structure Based on Their Cysteine Framework: a proof-of-concept study using Conotoxin Alpha-IMIII* [Master's Thesis, MSBE]. School of Graduate Studies, Mapua University.
- Rellin, P. A. (2018). *Influence of Nutrient Supplement in the Single Heavy Metals (Ni²⁺, Zn²⁺, Cu²⁺) Uptake and Mineral Nutrients Absorption by Water Kangkong (Ipomea Aquatica Forsk)* Master's Thesis, MSBE]. School of Graduate Studies, Mapua University.
- Roy, B. L. F. (2021). *Grafting poly(ϵ -caprolactone) (PCL) from Abaca cellulose fibers via Ring-Opening Polymerization resulting in facile one-pot biocomposites* Master's Thesis, MSBE]. School of Graduate Studies, Mapua University.
